Intended use: The Vaporizer is used to produce fragrances or aromas from the herbs and plant parts listed in the IFU. The scents and aromas are released by means of vaporization with hot air and can be inhaled directly. The Vaporizer is not intended for medical-therapeutic purposes.

We hereby declare under our sole responsibility that the above-mentioned products are in conformity with the relevant Union harmonisation legislation.

The declaration is valid for all products of the above-mentioned type from 08.09.2025.

Applied standards and regulations:

- EMC 2014/30/EU
- RED 2014/53/EU
- RoHS 2011/65/EU

On request you receive the complete list of harmonized and applied standards.

Tuttlingen, 08.09.2025

Jürgen Bickel, Managing Director
